future

The Population Health Branch is seeking a manager who is strategic, analytical, and has excellent problem-solving and communication skills for the position of **Manager, Epidemiology and Health Surveillance**. In this position, you will lead a diverse team responsible for supporting provincial and national population health surveillance and epidemiology reporting for Saskatchewan.

As the Manager, Epidemiology and Health Surveillance, you will plan and manage multiple projects related to public and population health assessment. This involves:

- Providing direction, supervision, information, work requirements, and feedback to staff;
- Collaborating internally and externally with the team, ministry, stakeholders, and public health experts to provide provincial epidemiological information and perspectives;
- Directing, assisting, and supporting provincial and national public and population health surveillance and research to provide data that supports evidence informed decision making;
- Providing advice and recommendations in monitoring and evaluating immunization, chronic disease, risk factor and vital events surveillance and population health status indicators;
- Providing information and guidance in interpreting, presenting, and communicating epidemiological findings;
- Conducting internal public health-related research and managing external data linkage requests;
- Providing direction and guiding the development and implementation of epidemiological work to support population-based health promotion, disease prevention, and health protection;
- Identifying information requirements and organizing and interpreting information to support decisions/recommendations and,
- Determining and applying statistical analyses using various systems and programs.

Typically, the knowledge and skills for this position are obtained through the completion of a graduate degree (Master's or Ph.D.) in epidemiology, biostatistics, or a related discipline together with significant experience in health surveillance, research, and statistics, and managing teams.

**Closing Date:** Sept 4, 2022

**Competition Number:** CON002326
